

The fast, easy, and cost-effective way to meet the CMS requirement to measure quality of life.

SIGN UP FOR KDOOL COMPLETE™ TODAY!

KDOOL COMPLETE™ is a web-based data management system that helps you score, report, and manage the mandatory KDOOL-36™ survey—and assess your patients' health-related quality of life. It is the only system of its kind—and makes it easy and practical to incorporate health-related quality of life measurements into your patient care plans and health records.

- ✔ Print KDOOL-36 survey forms (English & Spanish)
- ✔ Score surveys
- ✔ Print individual and clinic reports
- ✔ Track scores over time
- ✔ Identify at-risk patients
- ✔ Store data

KDOOL COMPLETE Features

- ✔ Easy data entry
Option: let patients take the survey online & eliminate staff data entry
Option: let MEI enter your data entry for \$2/survey.
- ✔ Automatic scoring with results in 5 domains
- ✔ Ready-to-print KDOOL-36™ forms with new Clinical Intro
- ✔ Additional languages coming soon
- ✔ Compares patient scores to research-based norms
- ✔ Colorful graphic data displays for CQI, analysis, and trending
- ✔ Personalized Patient Report at the 5th-8th grade level (in English or Spanish) explains scores, what they mean, and gives ideas for improvement
- ✔ Customized Chart Report for the medical record documents results for CMS surveyors
- ✔ Built-in video tutorials, printable user manual, and one hour of free technical support per clinic

Physical Component Summary (PCS)

46.484
Above Average

Case mix adjusted mean: **34.0891733**

How the patient perceives his physical health. The lower the score, the higher the risk of hospitalization or death.

Mental Component Summary (MCS)

41.104
Average

Case mix adjusted mean: **45.2627797**

How the patient perceives his emotional and mental health. The lower the score, the higher the risk of hospitalization or death.

Burden of Kidney Disease

68.750
Above Average

Case mix adjusted mean: **38.0272634**

How much CKD interferes with daily life, causes frustration, and makes the patient feel like a burden.

Effects of Kidney Disease on Daily Life

53.125
Average

Case mix adjusted mean: **60.2687701**

How bothered the patient is by fluid/diet, limits on work or travel, feeling dependent, stress, sex life, and appearance.

CHART REPORT

"I really like KDQOL COMPLETE. The report for the chart is great because it's on one page and very easy to read. Patients really like the report that is generated with their scores. I like the way they have colored blocks to indicate whether scores are above or below average. It's a great communication tool. We are so swamped with paperwork with the new regs that this site is a welcome relief."

Laura Schmidt, lead social worker, Liberty Dialysis, Pittsburgh

Created to comply with HIPPA requirements

KDQOL Complete™ uses a full range of security measures* to keep data secure:

- ✓ McAfee SECURE™ monitoring (24/7)
- ✓ Encrypted data transmissions
- ✓ Secure server with Secure Socket Layer (SSL) technology
- ✓ Hourly, daily, and weekly data backup
- ✓ Web-based system that eliminates on-site data storage
- ✓ User-generated access IDs and passwords (Passwords are one-way encrypted, and are not accessible to MEI employees)
- ✓ Automatic log off after 30 minutes of inactivity

* See our Service Agreement and Business Associate Agreement for additional information

KDQOL COMPLETE™ helps you follow the Conditions for Coverage requirements and document your compliance for CMS surveyors

More than 2,400 clinics already use KDQOL COMPLETE, including:

- American Renal Associates
- Ameritech Kidney Center
- DaVita
- Great Lakes Renal Network
- Innovative Dialysis Systems
- Liberty Dialysis
- Purity Dialysis
- Rubin Dialysis Center
- Satellite Healthcare
- US Renal Care

Low-cost Annual Subscription

Fees are based on the number of patients in your clinic. (You can survey these patients as often as you want!)

Large clinics	50 or more patients	\$350/year
Medium clinics	11 – 49 patients	\$250/year
Small clinics	10 patients or less	\$100/year

20% Corporate Discount

- ✓ Groups who sign up 100% of clinics at one time and make one payment
- ✓ Renal Purchasing Group members (RPG)

At less than \$1/day KDQOL-COMPLETE will pay for itself in staff time savings!
